Dear John,

Following the recent installation of our new kitchen facility, I felt I must write and thank you for your assistance in this project.

The service from the initial design draft to the completed project has been carried out with the utmost professionalism.

In the first two weeks that we were open we had over 700 customers through our new restaurant and conference facilities. Your design is a complete success and the kitchen is a fantastic learning environment for our students.

Please pass on my regards and thanks to your team on completing a difficult project. The installation engineers worked incredibly hard carrying all the items of equipment up numerous stairs whilst avoiding our students.

Thank you once again, it has been a pleasure doing business with you.

Yours sincerely,
